# SPOTLIGHT!

Learn more about your favorites!

- 1) What was your favorite memory from January A / B?
- 2) If you weren't a doctor, what would you be?
- 3) Give us your best Valentine's day pick-up line.
- 4) Toys-R-Us has re-opened and you get to pick any stuffed animal that you desire. Which do you gravitate to?

### Dr Lindsay Young, January IOM

- 1) Dr Carroll's cheezy poofs and peanut butter filled pretzels (came in handy as thank you's for calling the GI fellow 500x/day.)
- 2) Spin instructor.
- 3) Are you an eye doc? Because I need new contacts... specifically yours.
- 4) Panda.

### Dr Derek Menefee, January ROM

- 1) Having an awesome team to push through the long Jan A block with. Also, seeing a MELD of 51 was kind of bonkers.
- 2) I'd probably sign up for research experiments that paid. I'd hope to get superpowers from it but would instead get fibromyalgia.
- 3) Hey gurl, is that a sawtooth pattern on my EKG cause you are making my heart flutter.
- 4) I had an alligator stuffed animal growing up that I really liked so I'll go with that.

### Dr Katie Ray, January ROM

- 1) Listening to Taylor Swift with my lovely interns Maryellen and Scott who are also stars.
- 2) Book editor.
- 3) I don't have a pick-up line. I have no rizz.
- 4) Capybara.
